

Pelican Pocket: Card Guides

Each of the 6 cards serve a specific purpose.

Learn about the cards by answering & discussing the questions for each card.

Card 1. Support Awareness: Aims to help students recognize available support systems and normalize asking for help.

Card 2. Breathing Exercises: Aims to teach simple breathing techniques that help students calm themselves during stress or anxiety.

Card 3. Reset Manual: Aims to help students create personalized strategies to mentally and physically reset during overwhelming moments.

Card 4. Progress: Aims to encourage students to reflect on their personal values and recognize that progress is not always visible.

Card 5. Coping with Failure: Aims to reframe negative thoughts through grounding questions, practical solutions, and confidence-building reminders.

Card 6. Sleeping Hygiene: Aims to educate students on healthy sleep habits and the importance of rest for mental and physical well-being.

Card 1. Support Awareness

ASKING
FOR HELP
IS A
STRENGTH.

Health Center
(counselor)

Advisor

"I need help staying
grounded right now."

Peer Mentor / ISA
/ Prefect / RA

Family

SOS

988 Suicide & Crisis
Lifeline

Q. Why is asking for help often seen as weakness?

Q. What are the biggest reasons people hesitate to ask for help?

Q. Why are each contacts important and when do you need them?

Q. Fill out all the contacts!

Q. If you wanted to ask for help but don't know what to say,
what could you start with? Think of 2-3 sentence starters.

Card 2. Breathing Exercises

Q. What is the difference between shallow breathing and deep (belly) breathing?

Q. Why does slowing your exhale help you feel calmer?

Q. What are some situations where you might need to calm down?

Q. Using your fingers to guide you through each second (pelican footprint), try the 4-7-8 technique together!

Q. Try doing 3 deep belly breathing together!

Card 3. Reset Manual

RESET
=
REFUEL

🔴 Mind Reset

- count backwards from 60 by 3s

♥ Nervous System Reset

- ♥ clench fists for 5s and release
- ♥ walk to closest water fountain
- ♥ scribble for 30s

🔴 Sensory Reset

- close eyes & pick up 1 sound
- focus on 1 still object & describe
- trace a square in the air

Q. What happens in your brain and nervous system when you are overwhelmed or stressed?

Q. How is rest different from procrastination?

Q. What are your personal signs that you are mentally or physically drained?

Q. Which of these (breathing, walking, sensory grounding, etc.) do you think is most effective for you and why?

Q. What would your personal "reset menu" look like? Fill it out!

Q. What is one reset strategy you could realistically use during a busy school day?

Card 4. Progress

**PROGRESS
IS
PERSONAL.**

 CLOSE socials for 1 hour...
& answer these on paper / out loud

 What looks **impressive**?

 What do I **value**?

 Write 3 long-term goals to achieve that I **"value."**

 Make a to-do list of 3 small tasks for today to move closer to one of your goals.

PROGRESS
is not always

VISIBLE

Q. How do you usually measure your own progress right now?
Do you think your definition of progress comes more from yourself
or from others?

Q. The card says "progress is not always visible."
What are examples of progress that people cannot see?

Q. Why do people compare their progress to others,
even when they know progress is personal?

Q. What is one "invisible win" you had that you did not give yourself credit
for?

Q. What are 3 things you truly value that could guide your goals?

Q. Do the things on the steps!!!

1. Write 1 thing you are proud of today
2. Write 1 thing to work on tomorrow
3. Write 1 thing that made you smile

Card 5. Coping with Failure

**“FAILURE” IS
INFORMATION,
NOT
IDENTITY.**

Q. Am I tired, hungry, or lonely?
If you are tired...

 take a 26-minute power nap

 close your eyes for 2 minutes

If you are hungry...

 drink water first

 eat something simple & healthy
(granola bars, fruit, etc.)

If you are lonely...

 Read/watch something familiar

ONE OUTCOME ≠
MY ENTIRE FUTURE.

THIS IS ONE DATA POINT,
NOT A VERDICT.

EDISON HAD TO TRY
AGAIN 99 TIMES.

THERE'S MORE THAN
ONE PATH FORWARD.

Q. What are the risks of thinking in extremes like
“I failed, so I’m a failure”?

Q. If a failure is “data,” what kinds of questions should you ask
after something does not go as you hoped?

Q. Why do you think the card connects failure
with being tired, hungry, or lonely?

Q. Have you ever felt worse about a situation simply
because of one of these factors?

Q. Which of these three do you personally overlook the most?
What is one habit to overcome that?

Q. What is one recent “failure” you could reframe using this mindset?

Card 6. Sleeping Hygiene

**SLEEP IS
ESSENTIAL,
NOT
OPTIONAL.**

Q. What actually happens in your brain and body when you sleep?

Q. How much sleep do teens really need, and why is that important?

Q. How does using your phone at night affect melatonin and your ability to fall asleep?

Q. How does caffeine impact your sleep, even if you drink it earlier in the day?

Q. Why can inconsistent sleep schedules (weekday vs weekend) make you feel more tired?

Q. What does “sleep hygiene” actually mean, and what are its key components?

Q. What is one sleep habit you could realistically improve?
