- 📌 **close socials for 1 hour...**
- 🔍 **what looks impressive?**
- 💡 **what do I value?**
- 🎯 **write 3 long-term goals to achieve that "I value."**
- 📝 **make a to-do list of 3 small tasks for today, to move closer to one of your goals.**

PROGRESS
is not always
VISIBLE

1 thing you are proud of today

1 thing to work on tomorrow

1 thing you smiled for

9. Am I tired, hungry, or lonely?

If you are tired...
 take a 26-minute power nap
close your eyes for 2 minutes

If you are hungry...
 drink water first
eat something simple & healthy
(granola bars, fruit, etc.)

If you are lonely...
 reach out to someone familiar

ONE DREAM ≠
MY ENTIRE FUTURE.

THIS IS ONE DATA POINT,
NOT A VERDICT.

EDISON HAD TO TRY
AGAIN 99 TIMES.

THERE'S MORE THAN
ONE PATH FORWARD.

You need 8-10 hours of sleep per night.

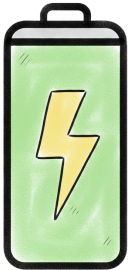

Your brain is still developing during sleep

Rest still helps, even if you don't fall asleep

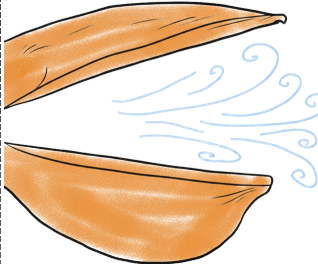

Sleep helps mood & memory.
